

Time to Reflect

The Impact of Stewardship

Throughout your reading of Grateful Disciples, you will be invited to think about your personal experience of living as a steward, while at the same time, take steps as you and your team lead your parish as a community of stewards. As you begin, take time to reflect on the impact of stewardship in your life and the life of your parish.

How has your commitment to live and grow as a steward changed your life? What is the impact of stewardship on you as a disciple of Jesus Christ?

In what ways is your parish impacted by the stewardship of parishioners at this time? What do you hope will change as your parish begins or continues to form parishioners as disciples who live as good stewards?
